

Imagine Art in Nature

Environmental art camp

5.-12.8. 2011

Metsäkartano Youth Centre, Rautavaara, Finland

Real Adventure
METSÄKARTANO
RAUTAVAARA • FINLAND

This visual environmental art camp will cover several aspects of the visual arts and participants will learn how to plan and create a large cooperative piece of artwork. During the week we will get to experience several different types of art including documentary photography, playing with organic materials from the nature and three dimensional construction art.

We will focus on different ways of observation and free creation in contemporary sense. We are feeling with all senses and searching for aesthetics in nature. During this week participants will learn the basics of the environmental-, earth- and landscape art and by the end of the week we will combine the efforts into a building of one or a few larger pieces.

We work in small groups and individually. Week will be full of seeing, hearing, drawing, building, painting, creating and having fun in the nature and finding the wonders surrounding us.

Workshop leader is Finnish art educator Meri Mort. (www.merimort.com)

Participation fee: 330e
Including accommodation, full board, activities, arrival and departure transfer to/from Nurmes bus/railway station.

Metsäkartano is just a perfect place
for this creative week, so why not
joining us?
